Description

Located in the scenic area of Agios Ioannis in northern Corfu, this 4,900 square meter seafront plot offers an exceptional opportunity to build in one of the island’s most naturally beautiful settings. The land is flat and easily accessible, with the rare advantage of direct access to the beach and uninterrupted views of the Ionian Sea and surrounding coastline.

The area retains a quiet charm and is not heavily developed, making it an appealing choice for those seeking a more authentic coastal location. At the same time, it remains well connected — just a short drive from the lively resort town of Sidari, where a full range of amenities is available.

With water and electricity already on site, the plot is well-prepared for development, whether for a private seaside residence or a smart investment project. Its combination of sea views, beach access, and practical location make it a standout opportunity in northern Corfu.
