Description

Set in an elevated position, this quiet and peaceful hillside property is situated in a small hamlet close to both Avlaki and San Stefano in the North East of the island and is within easy reach of the sea as well as amenities. The property is the last remaining house with a substantial amount of land in the area, and comprises of a beautiful plot of 1,918 sqm that is full of olive and fruit trees.

A main gates opens onto a private road that leads to the main house. There is a large garden area that is both to the front and rear of the house with enough room to construct a pool if desired. A stone terrace is situated below the house within the olive grove which could become a wonderful sun terrace or area for external dining. The views are already lovely, but with the trimming of some of the olives, the sea views would become uninterrupted.

The property itself offers 155 sqm of living space – there is the main house of 119 sqm spread over two levels. This original stone house has already been extended and renovated, and to the rear of this, there is a one storey stone property of 36 sqm which is need of renovation.

On the ground floor of the main house, there is a good-sized living room with an open fireplace. An arched doorway leads into the fitted kitchen and there is also a family bathroom on this level. Wooden stairs lead to the first floor where there are 3 bedrooms that all have balconies.

The separate guest house has two rooms with a fireplace and is in need of renovation.
