Luxury Apartment in Corfu Town

Reference: #TMANT1

A beautiful 5-bedroom apartment set in the heart of the town. Recently renovated, this spacious apartment is within a stunning older building and is conveniently located close to the theatre and within walking distance of all amenities and places of interest. An not to be missed opportunity to own a property in the one of the most elegant towns in Greece.

Information

Price: 640.000 €

Location: Corfu (Town)

Category: Apartments

Description

No visit to Corfu is complete without a visit to Corfu Town, the capital of the island and one of the most elegant towns in Greece that boasts a blend of Venetian, French and British architecture. Charming tall buildings and houses set on cobbled side streets, archways and the stunning Venetian Fortress are all part of its charm – so much so that since 2007, the town’s old quarter was added to UNESCO’s world Heritage list. And now you have an opportunity to own a beautiful apartment in this wonderful spot.

Located in the centre of Corfu Town, close to the theatre this wonderful apartment comprises the whole of the 3rd floor of the building – 230 sqm of living space plus an attic area that could easily be converted to create further accommodation.

Recently renovated, this spacious apartment offers you comfortable and modern living. From the ground floor entrance there are wide wooden stairs leading to the 3rd floor and the wonderful apartment entrance - a large square shaped vestibule with two doorways. The doorway immediately in front of you leads into the large living room and one to the right side that leads to a main hallway - off which there is access to all the other rooms – separate kitchen, bathroom with bathtub and all the rooms that could be used as bedrooms or office space – the potential here is limitless. With wooden floors throughout high ceilings and windows all around this whole apartment is light and airy and just a delight to be in.

For anyone looking for an investment opportunity, the configuration of the current apartment does also give you the potential to divide this whole apartment and create two smaller ones.

Other property features include heating and cooling via air-conditioning units, and should a lift be required for access, an agreement has already been made to create one if necessary.
