Description

Newly-built detached house with two levels and a wonderful 330sqm garden in the area of Danilia, central Corfu. The location of the property is ideal as the area of Danilia is a settlement with newly-built homes, surrounded by green landscape, very close to the market in Gouvia, and just 10 minutes from Corfu town and the airport and 5 minutes from new hospital of the island. Also opposite the property there is a local bus stop with regular connection to Corfu town and some of the islands beaches and a large Super Market. The house is 120sqm big, with plenty of amenities, such as solar water heating, rainwater collecting watertank, autonomous heating system, air conditioning, aluminum windows with mosquito nets, the handrail for easy access to the roof, covered garage and central remote controlled gate. The property has two levels linked by a spacious internal staircase and all the terraces are covered to protect the house from the weather conditions. On the ground floor there is an open-plan kitchen with fitted appliances, the lounge with its fireplace, the dining room, a TV room, a bathroom and a small storage room. The first floor hosts 3 bedrooms with large wardrobes and 2 bathrooms with bathtub. The exterior is fully landscaped with a stone-built fence, wonderful large garden with flowers and trees and a 13sqm outdoor storage room.
