Information

Price: 975.000 €

Location: Central

Category: Villas / Houses

Description

The main central home has 4 bedrooms and each of the homes on either side has 3 bedrooms each.

Other property features include double glazed windows with aluminium shutters, air-conditioning units, an alarm system, and security camera surveillance.

With a really high quality of construction, the villa offers 994 sqm of living space spread over two levels. It is currently divided into 3 with each home comprising of its main home, a basement area, garage, and a sizeable amount of land or could be used as one large single residence.

The property is surrounded by a variety of wonderful trees and its itself set with a plot of 4,000 sqm which is fenced, and a main electric gate opens onto a private paved driveway that leads to the rear of the villa and large parking area. The gardens are generally flat and have two levels that are generally laid to lawn.

Located in the Corfu Town suburb of Alepou, this property has a quiet residential countryside location with all the amenities and facilities of the main town within easy reach. It is positioned on the top of a hill which ensures its views – a stunning panorama of the surrounding area and countryside.
